

Marcus Grimmie

Marcus Grimmie knows first-hand the devastating effects gun violence can have on families. Marcus serves as the Board VP of the Christina Grimmie Foundation, which was founded by him and his parents in March 2017 in honor of his sister Christina who was murdered while signing autographs after her Orlando concert in June 2016.

Since its inception, Marcus has served as the CGF's spokesperson and liaison to all the families the nonprofit helps. He is personally involved in the decision making for each grant given out and is also actively involved in CGF's fundraising efforts.

In addition, Marcus volunteered with Ventura County's Victim's Services to better understand the process of Victim's Advocacy. He has spoken at numerous Victim Service summits and conferences throughout California. Both Marcus and his father, Albert, travel throughout the U.S. to meet with victim's families and service providers to help strengthen the resources that are available.

This South Jersey native, is also a personal trainer, producer and musician with the band The Similar. He resides in Southern California.
